

Student Representative – Annual Report, September 2015

As I reflect back on my first year on the board of directors for ICTA, I am pleased by the work that we have done collectively, and I am proud to be a part of such a member-focused organization. Moreover, I am particularly proud of the work of our student-members and I believe this year's conference features some of the very best student-scholarship across out state. Additionally, I also value feedback and invite any member to contact me with feedback, ideas, suggestions, or concerns.

The following lists the accomplishments and activities of the previous year:

- I attended all board meetings and provided feedback regarding organizational business as it relates to our student members.
- I proposed and implemented student travel grants for ICTA conferences.
- As a board, this year, we awarded 14 travel grants to student presenters.
- I assisted with the call for papers/proposals for the 2015 conference and ensured that it was shared with students in higher education.
- I assisted with reviewing submissions for recognition as top award winners.

This year I plan to focus on the following activities:

- Serving on the planning committee for the ICTA journal.
- Working with our web master to ensure accessible conference registration.
- Recruiting additional student members.
- Soliciting additional student scholarship for the 2016 ICTA conference.

Respectfully submitted,

Clinton Brown
Student Representative
